

INVITATION

AUSTRALIAN DELEGATION NANO TECH 2007, 21-23 FEBRUARY TOKYO, JAPAN

Australian companies and research institutes seeking to partner, collaborate and export their technology into the dynamic international micro and nanotechnology market are invited to participate in an Australian delegation to nano tech Japan 2007.

This year, Australian micro and nano capabilities will be showcased by an "Australian Pavilion" under the Brand Australia banner, supported by the Australian Nano Business Forum, Invest Australia and Austrade. With compelling cost advantages, process efficiencies, and high added value, companies are increasingly integrating nanotechnology solutions into hundreds of billions of dollars worth of products worldwide. It is vital Australian companies involved in product development, manufacturing and commerce become involved. nano tech Japan is the world's largest nanotechnology exhibition and conference attracting over 40,000 international delegates and 800 exhibitors and the best place to explore commercial opportunities in the international nano-enabled product market.

Register your interest now: leanne.bolton@anbf.com.au or M: 0414 510 333

Event Information:

The 6th international **nano tech 2007 Exhibition & Conference** will run concurrently with **Nano Bio Expo 2007**: biotechnology, nanotechnology and business, **neo functional material 2007**: electronics and printing materials, **ASTEC2007**: specialist exhibition for surface technology, treatment and processing.

Wednesday 21 – Friday 23 February, 2007 - Tokyo Big Sight, Japan
<http://www.ics-inc.co.jp/nanotech/en/outline/>

Those who should attend:

- Companies developing micro & nanotechnology solutions for health, transport, electronics, textiles, printing, materials, foods, environment, energy and water.
- Universities and research institutes commercialising nano related IP and/or seeking to enter both commercial and research collaborations.
- Manufacturers and developers of scientific instruments, devices and research tools.
- Advanced industrial and biomaterials manufacturers.
- Others interested in updating their awareness of the global nanotechnology market and its directions.
